

DATA VISUALIZATION

AGE WISE PATIENTS WITH DEPARTMENT AND SEVERITY FILTERS

DATE	07 November 2022
Team ID	PNT2022TMID02935
Project	Project - Analytics For Hospitals' Health-Care Data

In the Diagram,

The number of patients in the age between 0-10 there are 6,254.

The number of patients in the age between 11-20 there are 17,678.

The number of patients in the age between 21-30 there are 40,843.

The number of patients in the age between 31-40 there are 63,639.

The number of patients in the age between 41-50 there are 63,749.

The number of patients in the age between 51-60 there are 48,514.

The number of patients in the age between 61-70 there are 33,687.

The number of patients in the age between 71-80 there are 35,792.
 The number of patients in the age between 81-90 there are 7,890.
 The number of patients in the age between 91-100 there are 1,302.

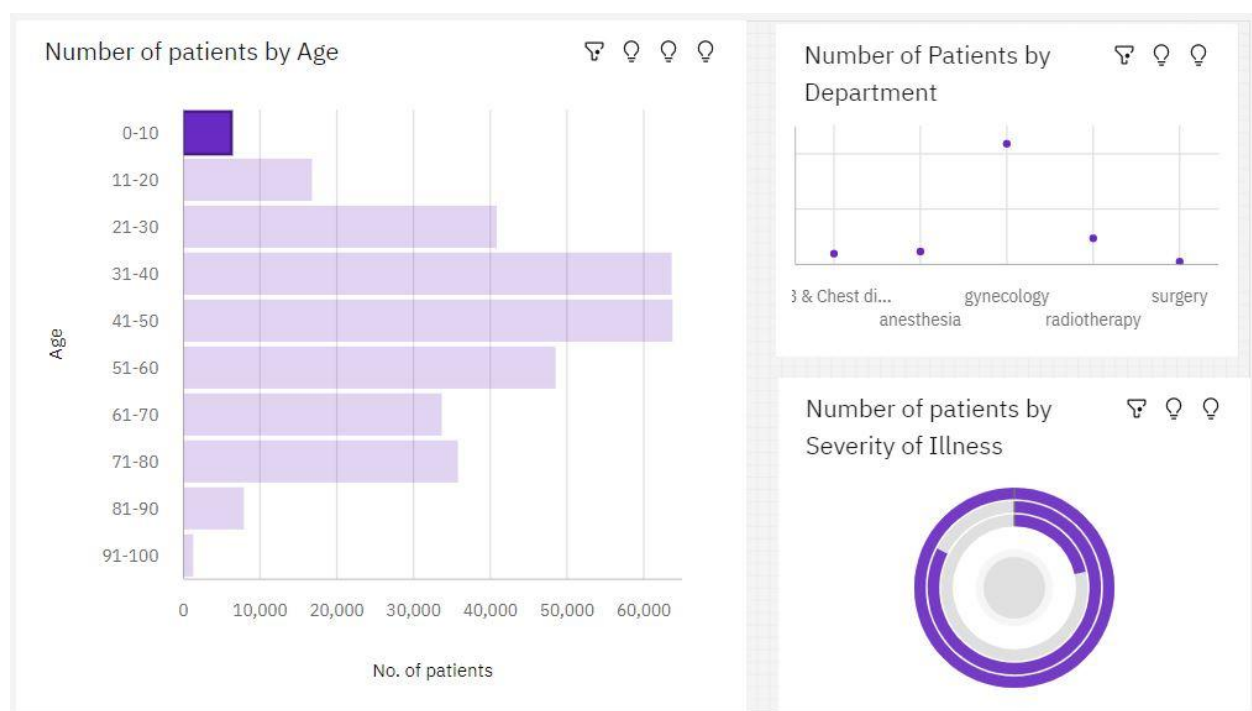

In the Diagram,

The number of patients in the department of TB & chest disease there are 9,586.
 The number of patients in the department of anesthesia disease there are 29,649.
 The number of patients in the department of gynecology disease there are 249,486.
 The number of patients in the department of radiotherapy disease there are 28,516.
 The number of patients in the department of surgery disease there are 1,201.

In the Diagram,

The number of patients by the severity of illness in the moderate is 175,843.
 The number of patients by the severity of illness in the minor is 85,872.
 The number of patients by the severity of illness in the extreme is 56,723.

Age 0-10:
