IDEATION PHASE
Define the problem statement

Date	31 October 2022
Team ID	PNT2022TMID02935
Project Name	Project - Analytics For Hospitals' health-care data
Maximum Marks	2 Marks

Problem Statement	I am	I'm trying to	But	Because	Which makes me feel
PS-1	Hospital Dean	I have to allocate resources to patients	I cannot properly allocate resources	I couldn't predict how long the patient may stay and utilize the resources	Unable to allocate resources properly for patients in need
PS-2	Patient	Get proper treatment	I didn't get proper resources	There is no available resources they are preoccupied with other patients	My health condition gets severe
PS-3	Patient	Get faster recovery	I didn't get the equipments for my recovery by the right time	Equipments are already provided for other patients	My condition gets severe
PS-4	Hospital Dean	Build trust on the hospital management	I couldn't give proper treatment and faster recovery for patients	There is no proper resource allocation as we couldn't predict the LOS (Length Of Stay)	stressed
PS-5	Doctors	Give better treatment for	But I get stuck with	The patients are not	depressed

		patients	more patients.	getting recovered at the right time due to lack of resource allocation. Poor progression of Patients	
PS-6	Patients	Get medical care	Unable to get required care	Limited number of doctors	frustrated
