Project Planning Phase
Project Milestones & Tasks

Date	04 November 2022
Team ID	PNT2022TMID02935
Project	Project - Analytics For Hospitals' Health-Care Data
Maximum Marks	4 Marks

Milestones	Tasks
MILESTONE - 1	Data Collecting phase (dataset)
MILESTONE-2	Required dataset is uploaded to the ibm cognos analytics platform
MILESTONE-3	Data exploration and visualization
MILESTONE-4	To create an interactive window
MILESTONE-5	Display the insights in the dashboard

MILESTONE-6	Construct the standardized dataset and use the needed data with assistance of a python program
MILESTONE-7	Train the model to predict the length of stay with the use of different algorithm in colab platform
MILESTONE-8	Display the output in the simpler and easier to understand and with more complexity
MILESTONE-9	Deployed in Github and waiting to review in it
